

I-Cut 130 PortionCutter

Accurate portioning of meat made easy

- Multi-language, user-friendly and intuitive operation
- Superior accuracy
- Full yield control – minimal giveaway
- Hygienic and easy to clean design

The I-Cut 130 PortionCutter

The I-Cut 130 PortionCutter is the ideal machine for high-value portioning of meat.

The machine's new vision system and flexible software support provide superior portioning accuracy, while ensuring maximum optimization of each individual item of raw material, with minimal giveaway.

Using the latest in laser vision technology, the I-Cut 130 PortionCutter sets a new benchmark for vision systems. Numerous advanced cutting patterns and software features ensure maximum return on investment, while routine touchscreen operations are made easy with flexible, intuitive and multilingual instructions.

The machine's robust design makes cleaning easy, ensuring optimal hygiene.

Hardware

- Next generation laser and mirror vision system ensures greatest possible accuracy
- Powerful computer and PLC controllers with proven servo motor technology
- High-speed portioning – up to 1000 cuts per minute
- Active product holder arms and back hold fork for efficient product stability during portioning process of round and odd-shaped products
- Removable Ropanyl belts for optimal sanitation
- Ethernet connection for remote access using Innova, Marel's Food Processing Software
- Secomea module for secured remote service access

Software

- Powerful computer with innovative cutting capabilities and superior programming flexibility
- Automatic, dynamic belt speed adjustment for higher throughput
- Knife speed adjustable to suit each individual product
- Intuitive, user-friendly and multilingual operation via 15" easy-to-operate touch screen
- Remote programming and reporting abilities via Innova, Marel's Food Processing Software

Product dimensions

Max. Height	150 mm / 5.9"
-------------	---------------

Max. Length	750 mm / 29.5"
-------------	----------------

Max. Width	270 mm / 10.6"
------------	----------------

Machine dimensions

Width	1315 mm / 51.8"
-------	-----------------

Length	3270 mm / 128.7"
--------	------------------

Height	1590-1940 mm / 62.6-76.4"
--------	---------------------------

Product under vision system

Product supported by product holder & back hold fork during cutting

Open construction and easy access for cleaning

Marel is the leading global provider of advanced equipment and systems for the fish, meat and poultry industries.
