

# Marel Multihead Weigher

Accurate batching of seafood

- Reduce your giveaway with highly accurate packing
- All-time low maintenance costs
- High throughput
- Highly automated and easy to operate
- Simple, hygienic construction that is easy to clean

The Multihead Weigher for seafood reliably batches shrimp, mussels and other seafood products with high capacity and great accuracy.

#### **Reliable, versatile and accurate**

The Marel Multihead Weigher deals with all infeed, sorting, mixing and weighing requirements. It automatically portions and packs seafood into virtually any type of tray, thermo pack, bag or box. Products are dispensed into hoppers by vibrating feeders and weighed into exact portions.

The Multihead Weigher can also be used by processors who need to make split or mix portions. The machine can be divided

for use with two or three products, which enables split portions of three different products.

#### **Proven features from the Marel Multihead Weigher range**

Multihead Weighers from Marel are built in accordance with stringent quality standards. The equipment is very reliable, stable and long-lasting, with a low cost of ownership. In addition, Marel has a vast range of experience in delivering everything from stand-alone Multihead Weighers to complete processing solutions, and can offer service packages that match the exact needs of each individual customer.
